

# Childhood Lead Poisoning Screening Map

Hillsborough County

- Universal Screening Area
- Zip Code Boundary
- Major Road
- Water Body

**Disclaimer:**  
This product is for reference purposes only and is not to be construed as a legal document. Any reliance on the information contained herein is at the user's own risk. The Florida Department of Health and its agents assume no responsibility for errors or omissions contained herein or for loss resulting therefrom.

This map should be used in conjunction with the verbal risk assessment. Do not permanently attach to wall (see reverse).

**Directions:**

1. Ask the parent for the zipcode of the physical address where they live
2. If the zipcode is on the list below, ask the parent to point to where they live on the county map
3. If they live in one of the green shaded areas, screen the child
4. If they do not live in one of the green shaded areas, continue the assessment process using the verbal risk assessment questionnaire

33585	33608	33615
33566	33607	33616
33570	33608	33617
33572	33609	33618
33573	33610	33619
33602	33611	33629
33603	33612	33634
33604		

Lead-based paint in older housing is the most significant source of lead exposure for children. This map displays shaded areas that exceed the national average for pre-1950 or pre-1970 housing. Children ages 1 and 2 living in the shaded areas should be screened. Older children living in these areas who were not screened by age 2 should also be screened.
